

Materials:

Tools:

Pencils, rulers w/ cm scale, scissors, 1 for ea student.

Consumables:

2 half 8.5" x 14" white file folders per student.

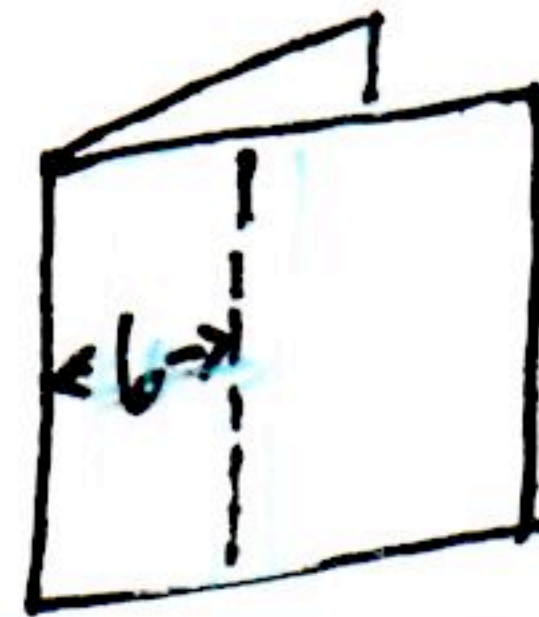

1 sheet 8.5" x 11" pc white card stock per student.

Glue Sticks.

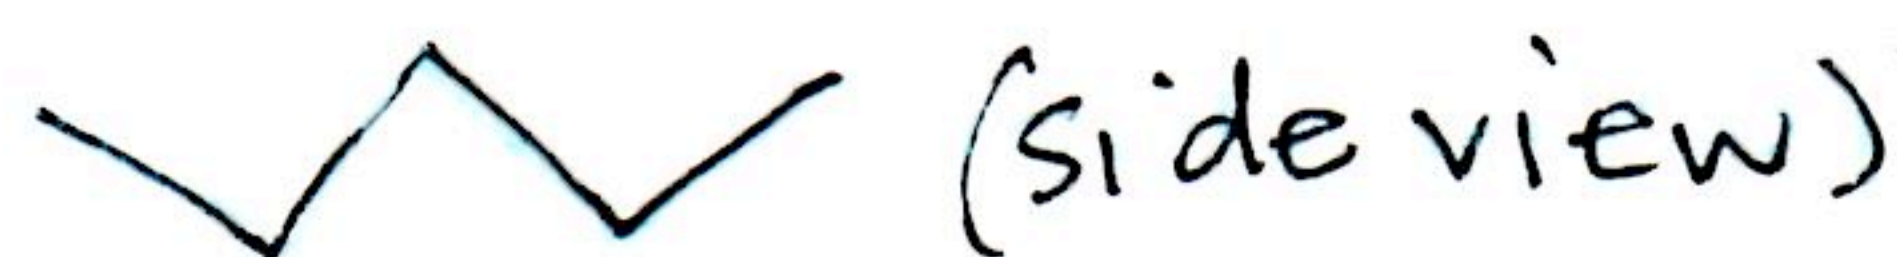

Sea Floor Spreading.

Fold first file folder inside out so print is on outside. Trim off ends so pages are even.

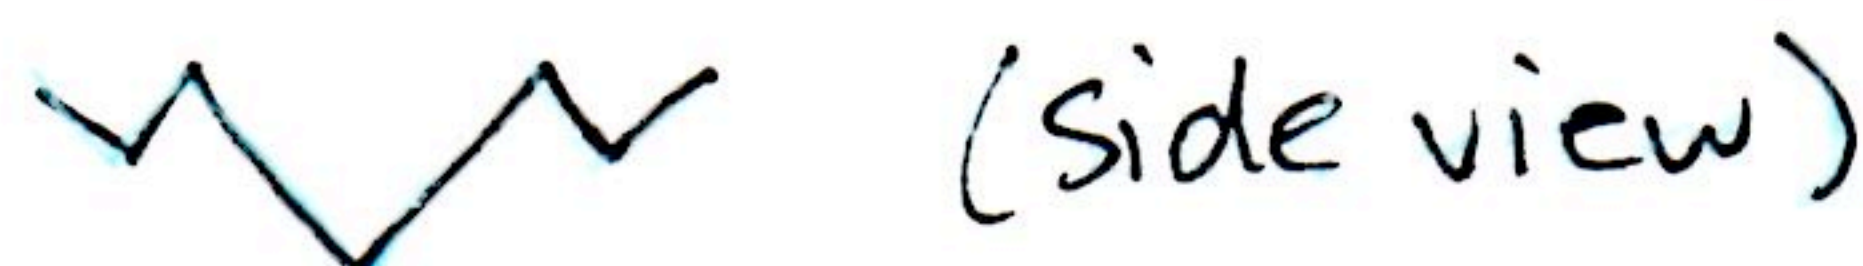

Measure 6 cm from center fold of file folder and draw line. Cut along line through both sides to get v-shaped gutter.

Fold back half along length of piece. Turn and fold other half.

Fold this half in half again, and do the same on the other side. You should have a big v with 2 smaller v's on either side.

Glue plane of outside, thinnest v's down in center of second file folder. You should have a wide valley in the center of the file folder

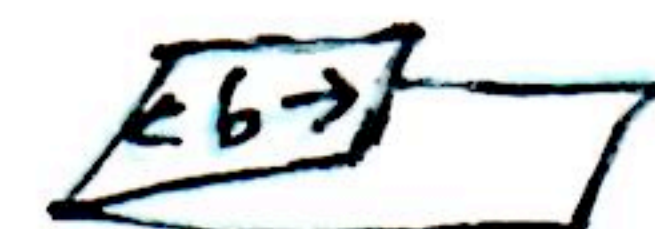

Measure & cut the remaining 2 pieces to 12 cm high (and 18.5 cm wide – the width of the pieces already).

Fold the 2 pieces in half.

Measure and cut 2 5x15cm pieces.

Measure 6 cm from one side of each 5x15cm piece and fold along line.

Measure 3 cm from longer, open end of folded 5x15cm piece and draw a line.
